SUMMARY

Flutter developer with 4 years building production mobile apps on clean architecture with Bloc/Cubit, REST API integration and Firebase. Played a key role in launching 4 apps to Google Play across e-commerce, jobs and edtech – working end to end from architecture through store release. Available immediately for a Flutter role in Riyadh or remote.

PROFESSIONAL EXPERIENCE

Flutter Developer (Independent Contractor), KoderzTech *🔗* 05/2024 – 06/2026

- **Delivered 4 end-to-end** Flutter apps, from architecture and development to **Google Play release**, working directly with clients.
- **Built production features** including **real-time map tracking**, e-commerce ordering flows, **REST API** integrations, and an **exam assessment system**.
- Improved **development efficiency** through reusable architecture and shared components while maintaining **high code quality**.

Flutter Developer, Tikelt *🔗* 08/2023 – 05/2024

- Delivered **production Flutter features** in an **Agile team** using **Jira**.
- Built responsive, **high-performance Flutter UIs** with **REST API integration**.
- Improved **app performance and reliability** through testing and optimization.

Flutter Developer, Visanka Technologies *🔗* 01/2022 – 07/2023

- Built production Flutter apps using **Clean Architecture**.
- Integrated **REST APIs** with pagination, error handling, and offline support.
- Developed **Flutter games** including Uno, Ludo, and Spider Solitaire.

SKILLS

Daily, in production

Dart · Flutter · BLoC/Cubit · Clean Architecture · MVVM · SOLID · REST API integration · responsive UI · custom widgets

Proficient

GetX · Provider · Firebase (FCM push, background handling) · Hive · SQLite/SQFLite · local caching and offline read support · secure storage · unit testing · Flutter DevTools profiling

Working knowledge

Google Play Console release management

Also used

Dio · Retrofit · freezed · go_router · dependency injection · i18n & Arabic RTL localisation

Delivery

Git · GitHub · GitLab · merge-request workflow · Jira · CI/CD

PROJECTS

Quick-App *🔗*, Hyperlocal Commerce & Delivery

Real-time live-map order tracking, store discovery, catalogue, cart and checkout over REST APIs.

Jobs *🔗*, Job Search & Recruitment

Mobile job marketplace featuring daily vacancies across multiple industries, advanced search and filtering, and an intuitive application experience for job seekers

Step to Success *🔗*, EdTech Exam Preparation

Teacher-authored model tests with exam-style question rendering, scoring and results

Khutwa (Step-App) *🔗*, Vehicle Advertising Marketplace

Connects advertisers with drivers to run ad campaigns on vehicles, letting drivers monetise their daily movement.

EDUCATION

B.Sc. Information Technology Engineering – Software Engineering track, Syrian Virtual University *🔗*
