PROFESSIONAL SUMMARY

Certified Flutter Developer with 3 years of experience, specializing in state management, clean architecture, and building scalable mobile apps for Google Play and the Apple App Store. Proficient in integrating payment gateways, Firebase, and RESTful APIs, with strong problem-solving skills and a collaborative work style.

PROFESSIONAL EXPERIENCE

2024/10 – Present
Damascus, SY

Flutter Developer (Remote – Full Time)
KoderzTech

- Contributed to the development of multiple Flutter-based mobile applications (5 apps in total x2 growth), ensuring robust functionality and delivering tailored solutions aligned with client requirements.
- Collaborated with the team as an independent contractor, participating in various projects and consistently meeting deadlines with clean, maintainable code — achieving a 30% improvement in delivery efficiency across tasks.
- Played a key role in launching four applications, including a dedicated **jobs** platform, an e-commerce app, as well as the **Step to Success** application which contributed to improving user learning engagement.

2024/04 – 2024/10
Dubai

Flutter Developer (Remote - Full Time)
Tikelt

- Utilized testing tools (including unit testing) to ensure code quality and correct functionality.
- Developed responsive and user-friendly mobile applications using Flutter and Dart.
